[Dynamic Staffing In A Telephone Call Center Aiming To Immediately... - Whitt \(1998\) \(Correct\) \(1 citation\)](#)

Dynamic Staffing In A Telephone Call Center Aiming To Immediately Answer All Calls By

www.research.ait.com/library/trs/.TRs/98/98.34/98.34.1.body.ps

[A Thread Taxonomy for MPI - Skjellum, Protopopov, Hebert \(1996\) \(Correct\) \(5 citations\)](#)

unit is suggested. Specific results thus far with Windows NT version of MPICH are mentioned. 1 and changes of the semantics of non-thread-safe MPI calls, different thread models, their uses, and prevents application programmers from using MPI calls in multiple user threads. Since multi-threaded www.cs.msstate.edu/~tony/documents/Message-Passing/ThreadTaxonomy.ps.Z

[Blocking Effects of Mobility and Reservations in Wireless... - Vargas Hegde \(Correct\)](#)

the effects of mobility and reservations on new call blocking and handoff blocking in multirate (FCA) with priority for handoffs over new call arrivals by reserving a number of channels for by reserving a number of channels for handoff calls in all the cells. The performance measures used www.ee.lsu.edu/mort/publications/lcc.98.ps.gz

[Complexity of Single Level Function Pointer Aliasing Analysis - Zhang, Ryder \(1994\) \(Correct\) \(3 citations\)](#)

for interprocedural analyses in the presence of calls through function pointers. We have classified the www.cs.rutgers.edu/pub/technical-reports/lcsr-lr-233.ps.Z

[Design Of Universal Continuous Media I/o - Charles Cranor \(1995\) \(Correct\) \(16 citations\)](#)

the i/o subsystem (due to data copying and system call overhead)and little support for continuous i/o subsystem with minimal data copying and system calls support for continuous media including qos the number of asynchronous interrupts and system calls This work was supported in part by ARPA, the hulk.bu.edu/nossdav95/./nossdav95/papers/cranor.ps

[Efficient call handling procedures in cellular mobile networks - Mandjes, Tutschku \(1996\) \(Correct\) \(6 citations\)](#)

the time limit a handover can be postponed. So far the handover retry mechanism has not been Computer Science Research Report Series Efficient call handling procedures in cellular mobile networks www-info3.informatik.uni-wuerzburg.de/staff/tutschku/pub/PS/tr144.ps.gz

[Operating System Techniques for Distributed Multimedia - David Yau \(Correct\) \(3 citations\)](#)

for reduced copying, the concept of fast system calls for low latency network access, and the concept for flow control. Also included is a concept called direct media streaming which is suitable for between kernel and user space through system calls and returns. Data are transferred via ftp.cs.utexas.edu/pub/lam/tr95-36.ps.Z

[A Telephone Exchange Specification in VDM-SL - Aichernig \(1998\) \(Correct\)](#)

happens when a subscriber has been attempting to call another subscriber unsuccessfully for too long a are either initiators or recipients of telephone calls. An initiator is the only one able to terminate a various sub-states: he might be attempting (AI)to call somebody (e.g. dialing)or waiting WI for ftp.lst.tu-graz.ac.at/pub/publications/IST-TEC-98-04.ps.gz

[Register Allocation Using Lazy Saves, Eager Restores, and ... - Burger, Waddell, Dybvig \(1995\) \(Correct\)](#)

that optimizes register usage across procedure calls. It capitalizes on our observation that while ftp.cs.indiana.edu/pub/scheme-repository/doc/pubs/Reg-Alloc-PLDI95.ps.gz

[The Alloc Stream Facility: A Redesign of Application-Level ... - Krieger, Stumm, Unrau \(1994\) \(Correct\) \(9 citations\)](#)

introduces a new application level I/O facility called the Alloc Stream Facility (ASF)ASF has several in data copying and the number of I/O system calls. Second, the facility is designed for a way that allows applications to freely intermix calls to the different interfaces, resulting in ftp.cs.toronto.edu/pub/parallel/Krieger_etal_IEEEComp94.ps.Z

[Congestion Control And Prevention In ATM Networks - Hong, Suda \(1991\) \(Correct\) \(22 citations\)](#)

traffic, connection oriented and connectionless calls, and point-to-point and broadcast communications are fixed size packets of 53 bytes each. Since calls are multiplexed on a cell level, ATM does not factor which favors ATM is the bursty nature of calls expected. Bursty calls are calls which generate a
ftp.ics.uci.edu/pub/duke/netmag.ps.Z

Visualisations of Large Object-Oriented Systems - Haynes, Menzies, Cohen (1995) (Correct) (4 citations)

The use of ternary diagrams to represent normalised call graph directions permit the succinct 1,643 vertices and 194,451 edges. 1 Introduction A call graph is a directed graph whose vertices represent values are passed to sub-routines. An anonymous call graph is a call graph where all the vertices have
insect.sd.monash.edu.au/research/publications/1995/TR95-4.ps

Representing Control in the Presence of First-Class... - Hieb, Dybvig, Bruggeman (1990) (Correct) (49 citations)

segment is sealed and the current stack record is converted into a continuation object by adjusting the in languages that support recursive procedure calls [5]Stacks allow rapid allocation and Stacks allow rapid allocation and deallocation of call frames and This material is based on work
www.cs.indiana.edu/~www/proglang/papers/stack.ps

Mining Optimized Association Rules with Categorical and... - Rastogi, Shim (1998) (Correct) (9 citations)

a telecom service provider database that contains call detail information. The attributes of the relation information about the two endpoints of each call, as well as the temporal elements of the call. The each call, as well as the temporal elements of the call. The association rule (src city =NY) dst
www-db.research.bell-labs.com/user/shim/icde98.ps.gz

Language Modeling For Content Extraction In... - Reichl, Carpenter... (1998) (Correct)

designed to automatically route incoming customer calls. We arrive at two significant conclusions: First, 1. INTRODUCTION The first task facing any call center is call routing, which involves directing The first task facing any call center is call routing, which involves directing customers to the
www.colloquial.com/carp/Publications/ImI CSLP98.ps

On the Nonexistence of Optimal Scheduling Strategies... - Rao, Ramakrishnan... (Correct)

(i.e.more answers remain to be added)Since it is far more efficient to retrieve from completed tables, is to maintain all the subgoal invocations in a call table and their computed answers in an answer
www.cs.sunysb.edu/~ram/papers/nonexist.ps

An Efficient, Extensible Design of a PCS Network Simulation - Douglass, Gupta, Malloy... (1995) (Correct)

cells if and only if the cells are sufficiently far apart. This geographic separation guarantees that is assigned a set of channels used to service calls from cellular phones located in the cell. A given that the level of interference is low for calls assigned to the same channel. When a PCS user
ftp.cs.clemson.edu/techreports/95-108.ps.Z

Time and cost trade-offs in gossiping - Czumaj, Gasieniec, Pelc (1998) (Correct) (1 citation)

SIAM J. Alg. Disc. Meth. 2 (1981)13-18. 4] A. Farley and A. Proskurowski, Gossiping in grid graphs, processors. This fundamental communication task is called gossiping. In a unit of time every processor can
www.uni-paderborn.de/fachbereich/AG/agmadh/PapersPostscript/Czumaj-Gasieniec-Pelc.ps.gz

Admission Control and Routing in ATM Networks... - Courcoubetis... (1995) (Correct) (33 citations)

1995 Abstract-We address the issue of call acceptance and routing in ATM networks. Our goal bounds on the fraction of cells lost by a call. The method we propose for call acceptance and of cells lost by a call. The method we propose for call acceptance and routing does not require models
cheetah.vlsi.uwaterloo.ca/~kesidis/TCornm95.ps

A Sense of Self for Unix Processes - Forrest, Hofmeyr, Somayaji... (1996) (Correct) (55 citations)

which resolves to udecode, a UNIX program that converts a binary file encoded in plain text into its to consider them later. Our philosophy is to see how far we can go with the simple assumption. 3.1 by short-range correlations in a process 'system calls. Initial experiments suggest that the definition
